FTP Quick Guide

SET

At the General tab, include this information:

- Host: ftp.catalystapps.com
- Port: [leave blank]
- Protocol: FTP-File Transfer Protocol
- Encryption: Require implicit FTP over TLS
- Logon Type: Normal
- User: [Catalyst provided username]
- Password: [Catalyst provided password]

| Site Manager | × |
|---|--|
| Select Entry: My Sites Catalyst | General Advanced Transfer Settings Charset Host: ftp.catalystapps.com Port: Protocol: FTP - File Transfer Protocol ~ Encryption: Require implicit FTP over TLS ~ |
| | Logon Type: Normal Vser: username Password: Background color: None Comments: |
| New Site New Folder New Bookmark Rename | ~ |
| Delete Duplicate | Connect OK Cancel |

GO

- 1. Select OK.
- 2. If you encounter a Certificate Warning, select Accept.
- 3. The next time you connect to the Catalyst FTP, simply pick the appropriate site (e.g. Catalyst) and click **Connect**.
